Comments:

Please complete all fields

All questions must be answered in order for the Letter of Intent to be considered. Please do not leave questions blank. If a response is "0," place a zero in the space provided. If a response is "not applicable," please indicate with N/A.

Incomplete Letters of Intent will not be reviewed and will require creating a new profile and resubmitting a complete Letter of Intent. Please be as thorough as possible without exceeding word or character limits.

Based on language in the Ohio Constitution, **the Advanced Energy Job Stimulus Program provides forgivable and non-forgivable loans ONLY.** The Ohio Constitution does not allow grant awards for this program.

Also, please remember that the Advanced Energy Job Stimulus Program funds fixed assets (such as machinery and equipment) and does not fund working capital or operating capital.

Eligibility

Proposal Name:

Size of Budget Request (\$) (Numbers only):

Total Project Investment (\$) (Numbers only):

Jobs Created by Project (Numbers only):

This number should include fulltime temporary (non-construction of less than one year duration), part time temporary (non-construction of less than one-year duration) and construction jobs.

Number of new (direct) full time jobs created by the project in 3 years:

This number should include fulltime permanent and part time permanent jobs.

Jobs Retained (Numbers only):

This number should include the number of jobs retained within the organization that would have been eliminated without the Advanced Energy Job Stimulus funds.

Please identify other sources of funding:

Applicants are required to identify additional funding sources, such as financial institutions, grants, other loans and/or personal resources to augment Advanced Energy Job Stimulus Program funds. Be as specific as possible and identify the financial institutions, grants, other loans and/or personal resources by name.

Stages of Development (Choose Only One):

- R&D/Prototype
- Pilot/Demonstration
- New Production

Use of Program Funds:

- Land Acquisition
- Building Construction/Acquisition
- Machinery and Equipment

- Expansion
- Other:

- On-Site Infrastructure
- Off-Site Infrastructure
- Other:

For which technology category does this project qualify? Please choose only one.

Based upon the statutorily identified sources of revenue for the advanced energy component of the stimulus package, loans and forgivable loans are available for non-coal advanced energy technologies.

Although precise definitions in the statute (ORC [3706.25](#) and [4928.621](#)) should be reviewed by applicants, the following are general eligibility guides but are not intended to be exclusive.

- Increased efficiency in electricity generation without additional carbon dioxide emissions;
- Distributed generation commonly referred to as combined heat and power;
- Advanced nuclear energy technology of generation III or later;
- Fuel cells;
- Advanced solid waste or construction and demolition debris conversion technologies resulting in measurable greenhouse gas emission reductions;
- Renewable energy resources energy derived from sources including solar, wind, hydroelectric, geothermal, certain fuels derived from solid wastes not derived principally derived from combustion, certain byproducts of the pulping or wood manufacturing process and storage facilities that promote better utilization of a renewable energy resource; or
- Any technologies, products, activities or management practices or strategies that reduce or support the reduction of energy consumption (energy efficiency and conservation) or support the production of clean renewable energy.

Project Scope

Describe the scope of your project (in 1500 characters or less):

What type of jobs will this project create?

Please include fulltime, part time, permanent, temporary and construction jobs.

At what stages will the jobs be created?

Please remember that the Program is first and foremost, a jobs creation program which seeks to fund projects that create jobs in the short term (the program runs through 2011) and by necessity, are later stage commercialization (and not research and development) projects.

Approximately when will the initial sales occur? (mm/yyyy)

In which industry sectors are your customers?

In which industry sectors are your suppliers?

Why is this funding necessary for your project?

I agree that the information submitted is to the best of my knowledge both truthful and accurate
